

PROBAN®

Washing Your Garment

Care instructions:

WASHABLE AND DRY CLEANABLE
DO NOT USE SOAP
WASH IN SYNTHETIC DETERGENT
DO NOT USE HYPOCHLORITE BLEACH

- Wash in Cold or warm water. The water temperature should not exceed 50°C. This will help protect the trimmings on the garment.
- Use a synthetic detergent. Brands such as OMO*, Coldpower* and Spree* are suitable.
- Tough stains. Use an in-wash stain remover such as Napisan*. Do not use Hypochlorite Bleach, commonly known as Chlorine Bleach, as this will affect the fire retardancy of the fabric.

*Brands are suggestions only and are not officially recommended by Rhodia UK Ltd.

Correct washing ensures that the PROBAN® fire retardant properties will remain effective for the life of your garment. In order to promote ongoing protection, regular correct washing of your PROBAN® garment is recommended.
